DATA PROTECTION

Personal information provided in an application form and during the period of any subsequent Licence is normally held for a period of five years from the expiry of the last consecutive Licence held. It will be used primarily for the purpose of the licensing function concerned although it may also be used for data matching purposes across various licensing functions.

Personal information held for licensing purposes will be held and used in accordance with the requirements of the Data Protection Act 2018. To assist the Council in the prevention and detection of fraud so that it can protect the public funds it administers the Council may use information provided for licensing purposes within this Authority for data matching purposes. It may also data match information provided for licensing purposes with other public bodies that regulate, administer or are in receipt of public funds for the purposes of the prevention and detection of fraud. If you do have any queries regarding any Data Protection, please contact the responsible officer,

FREEDOM OF INFORMATION

Information held by the Council may need to be disclosed in response to a request for it within the terms of the Freedom of the Information Act 2000. This information excludes that which is in any other way already in the public domain.

Conservation Measures for Zoos

The following are conservation measures to be implemented in zoos in accordance with the Zoo Licensing Act 1981: -

1. Participating in at least one of the following –

    (i) research from which conservation benefits accrue to species of wild animals.
    (ii) training in relevant conservation skills.
    (iii) the exchange of information relating to the conservation of species of wild animals.
    (iv) where appropriate, breeding of wild animals in captivity; and
    (v) where appropriate, the repopulation of an area with, or the reintroduction into the wild of, wild animals.

2. Promoting public education and awareness in relation to the conservation of biodiversity, in particular by providing information about the species of wild animals kept in the zoo and their natural habitats.

3. Accommodating their animals under conditions which aim to satisfy the biological and conservation requirements of the species to which they belong, including –
    (i) providing each animal with an environment well adapted to meet the physical, psychological and social needs of the species to which it belongs; and
    (ii) providing a high standard of animal husbandry with a developed programme of preventative and curative veterinary care and nutrition.

4. Preventing the escape of animals and putting in place measures to be taken in the event of any escape or unauthorised release of animals.

5. Preventing the intrusion of pests and vermin into the zoo premises; and

6. Keeping up-to-date records of the zoo's collection, including records of – (i) the numbers of different animals.
    (ii) acquisitions, births, deaths, disposals and escapes of animals; (iii) the causes of any such deaths; and (iv) the health of the animals.
