Education

Division Detailed Budget Page

The Education and Skills Division delivers on the Council's statutory responsibilities under a number of pieces of legislation for both children in mainstream and children in specialist education (for example special schools or in alternative provision). The Division also delivers on locally agreed priorities for maintaining and improving educational quality and outcomes for children and young people, as well as some aspects of adult learning in the skills and employability agenda. All aspects of children of statutory school age are the responsibility of this service, as well as some aspects of pre-school aged children and of post-16 and adult education.

Special Educational Needs

Service area Detailed Budget Page

This service delivers on the Council's statutory responsibility to assess children and young people who may have a special educational need or disability, and if so to put appropriate education, health and care provision in place to meet identified needs describing this in a statutory EHCP (education, health and care plan). This team also monitors the effectiveness of EHCPs, including facilitating and managing annual reviews.

Financial Services to Schools
Service area Detailed Budget Page

This team offers a service level agreement to schools and groups of schools to help them to set and monitor their annual budgets and three-year budget forecasts. This team also supports any deficit budget clinic that may be required if maintained schools have deficit budgets. Finally, members of this team support the budget setting and monitoring of the Dedicated Schools Grant (DSG), and support the completion of statutory returns to the DfE/ESFA by corporate finance colleagues.

Dedicated Schools Grant - Individual School Budgets

Service area Detailed Budget Page

This is a part of the large Dedicated Schools Grant that comes to local authorities from the DfE/ESFA. The ISB block of the Grant contains the base funding for schools to cover the costs of delivering an education to pupils, for example staffing and resources. The allocation of base budgets to schools is done on a formula basis which is agreed locally at statutory Schools Forum. Local variability around base budgets has been slowly diminished over time and the DfE are very close now to implementing a National Funding Formula which all local authorities will be required to use. See also Financial Services to School function above.

Dedicated Schools Grant - Schools Central Expenditure
Service area Detailed Budget Page

This is a part of the large Dedicated Schools Grant that comes to local authorities from the DfE/ESFA. This line contains the Early Years Block of funding which supports the education of pre-statutory school age children in schools and with private and independent childcare providers. This funding covers things such as staffing costs and resources. See also Financial Services to School function above. Also contains provision of High Needs spending funded from the Dedicated Schools Grant and central authority services funded through DSG.

Family Services

Service area Detailed Budget Page

A range of services that contribute to the city's early help, intervention and prevention offer. Children and Families Newcastle service area works with families and agencies to ensure early identification of needs, supporting families to access the right help at the right time. The service also fulfils the statutory requirements in respect of early years and childcare providers, and directly delivers full day care (Castle Nurseries) on behalf of the local authority.
