FAO DHR Quality Assurance Panel re. DHR 'Mrs X'

Please find attached the completed overview report, executive summary and action plan in respect of the above named victim.

This review commenced on 13th June 2013 and initial delays occurred due to disclosure concerns and waiting for the outcome of the criminal proceedings.

This review has benefited greatly from the very close involvement of a personal friend of the victim. Further delays have occurred as the panel wished to allow significant time for this person to respond to the final overview report.

I wish to assure the Panel that the procedural and quality issues did not prevent lessons learned from the review being acted upon at the earliest opportunity.

Kind regards,

Robyn Thomas

Service Manager (Community Safety)
