There is a break in service during the winter months that is shown on service calendars.

The later you sign up, the fewer collections you will receive. A sticker and a 240 litre garden waste bin will be provided which will be emptied by the Council once every two weeks, on the days specified.

(Exemptions to this policy apply during inclement weather, in cases of operational difficulty or any event of 'Force Majeure').

An assisted lift service is available upon request for eligible households. If you already receive assisted lifts for your domestic and/or recycling bins, you will be eligible for an assisted lift for your garden waste bin. This will automatically be arranged for you when you subscribe.

9. Missed garden waste bins

If you want to report a missed garden waste collection, please contact us the day after your collection was missed. Before contacting us to report a missed collection, please ensure:

- The correct bin was put out for collection,
- The bin was at the kerbside or the designated collection point by 6.30am,

- The correct items were in the bin and the waste is not compacted.

If our records show:

- A street has been serviced by our collection vehicle then the bin will be collected at the next scheduled collection,
- An assisted lift has been missed it will be collected within three working days,

- A street has been missed* then that street's garden waste bins will be collected within three working days.
- (*A street could be missed for a variety of reasons such as, inaccessibility due to parked cars or road works).

Where householders do not present their garden waste bin for collection in accordance with Council requirements, the householder will have the following options:

- a. Take the waste to a Household Waste Recycling Centre,

All garden waste must be presented safely and suitably in the bin provided on the next scheduled collection day.

- a) We only accept loose garden waste placed in the garden waste bin. Garden waste includes grass cuttings, weeds, dead flowers, small tree branches, loose leaves, shrub and hedge trimmings. The garden waste must not be placed in plastic bags or any other sort of packaging as this affects the treatment process and contaminates the resultant compost.
- b) Branches, logs or roots more than 10 cm (4 inches) in diameter and Japanese Knotweed must not be placed in your garden waste bin.
- c) We will not collect: food waste; turf or soil (small amounts attached to roots are acceptable); stones, gravel, bricks, paving or fencing; cat litter; dog faeces; plant pots or seed trays; sawdust or hay bedding from small pets
- d) Contaminated garden waste bins (i.e. bins containing incorrect materials as identified above) will not be emptied. If the bin is contaminated it is your responsibility to remove the item(s) of contamination prior to the next collection. If the contamination continues, the Council may remove the bin without refund.
- e) Garden waste bins that are overflowing or overweight will not be emptied. A tag will be placed on the bin by the crew to identify it as being overweight when they are either not able to move the garden waste bins or the vehicle is not able to lift the bin or empty it. If the bin is too full or overweight, it is the householder's responsibility to remove the item(s) prior to the next collection. If the householder fails to do so we may remove the bin without refund.
